Luis Gonzalo Larrota Bernal

Bogotá, Colombia | +57 3133131797 | luis.larrota10@gmail.com | English (Advanced), Spanish (Native)

Professional Profile

Systems Engineer with over 9 years of experience in Quality Assurance (QA) and manual/functional testing across web and mobile platforms (Android/iOS). Expert in Agile (Scrum) and traditional methodologies, with proven experience leading teams and coordinating quality processes. ISTQB Certified, with a strong background in telecommunications, banking, and technology companies at both national and international levels. Experienced in building and implementing QA processes from scratch, focused on improving software quality, reducing defects, and optimizing processes.

Technical Skills

• Testing: Functional, Regression, Integration, Exploratory, Mobile (Android/iOS), Web Testing
• QA Tools: Jira, TestRail, SoapUI, Postman, Swagger, Charles Proxy
• Programming & Databases: Java, Python, SQL, PL/SQL, MySQL, Android Studio
• Methodologies: Agile (Scrum), V-Model, QA Automation (basic)
• Cloud & DevOps: AWS, CI/CD (basic)
• Others: ActivePresenter, LoadRunner, Adobe Suite.

Professional Experience

QA Coordinator / Senior QA Analyst – LG CNS, Bogotá, Colombia

Dec 2025 – Present.

• Leading the creation of the QA process from scratch (end-to-end).
• Designing test plans, test cases, requirements, and QA documentation.
• Building QA repositories and documentation structure without tools like Jira.
• Coordinating manual testing activities (functional, regression, integration, exploratory).
• Defining testing strategies aligned with business goals.
• Collaborating with development teams and stakeholders.
• Driving QA team growth and structure.
• Promoting continuous improvement of QA processes and increasing test coverage.

Senior QC Analyst – eCabs, St. Julians, Malta

Nov 2023 – Sep 2025.

• Implemented changes in testing methodology, improving defect traceability in Jira and TestRail.
• Executed functional, regression, integration, and exploratory testing for mobile, web, postman platforms.
• Collaborated with development and UX/UI teams to define acceptance criteria and ensure product quality.
• Promoted QA process improvements, reducing execution times.

QC Analyst – Globant, Bogotá, Colombia

Feb 2018 – Apr 2022

• Ensured software quality in international projects such as ESPN App, eVestment, Disney, DirectvGO and OpenBank.
• Reduced production defects by 20% by optimizing regression testing strategies.
• Created and executed test cases using Jira, Postman, and Swagger.
• Configured testing environments (Amazon WorkSpaces, CMS, mobile devices).
• Validated logs and reported findings to ensure stable releases.

Quality Analyst – Choucair Testing, Bogotá, Colombia

Apr 2015 – Jan 2018

• Led QA projects for clients such as Compensar, Claro, and Avantel using Scrum and traditional methodologies.
• Designed and executed functional, and performance test plans.
• Reduced testing execution times by 25% through partial automation and test data management.
• Developed risk matrices and test strategies, adding value to project delivery.

Certifications

• ISTQB™ Certified Tester (2017)

• Business Diploma – Corporación Unificada Nacional CUN (2014)

Education

• Systems Engineering – Corporación Unificada Nacional CUN, Bogotá (2015)

• Systems Technology – Corporación Unificada Nacional CUN, Bogotá (2013)

• Professional Technician in Systems – Corporación Unificada Nacional CUN, Bogotá (2011)
